Project Objective

To extract product information from Flipkart using Python web scraping techniques. The project aims to collect details such as brand name, price, discount, and image URLs, and organize the data into a structured format for analysis

Introduction

Web scraping is the process of extracting data from websites using programming techniques. In this project, product information was collected from Flipkart, one of India's leading e-commerce platforms. Using Python libraries such as Requests, BeautifulSoup, and Pandas, product details including brand name, price, discount, and image URLs were extracted and organized into a structured dataset for analysis.

Problem Statement

E-commerce websites contain a large amount of product information that is useful for market research and analysis. Manually collecting details such as product brand, price, discount, and images is time-consuming and inefficient. The objective of this project is to develop a Python-based web scraping solution that automatically extracts product information from Flipkart and stores it in a structured format for further analysis.

Methodology

1. Imported required Python libraries such as Requests, BeautifulSoup, and Pandas.
2. Sent an HTTP request to the Flipkart product page.
3. Parsed the HTML content using BeautifulSoup.
4. Identified relevant HTML tags and classes.
5. Extracted product details such as brand, price, discount, and image URLs.
6. Stored the extracted information in lists.
7. Created a Pandas DataFrame for structured data analysis.

Flipkart Shoe Products Understanding

Before performing web scraping, it is important to understand the structure of the Flipkart website for shoe products. The target information includes product name, brand, price, discount, hot deals, images, and product URL.

Website Used: Flipkart [<https://www.flipkart.com/search?q=shoes>]

Flipkart Shoe Products Understanding

Before starting the web scraping process, it is important to understand the structure and content of the Flipkart website. Flipkart is a popular e-commerce platform that provides extensive information about shoes, including brands, prices, discounts, images, and product links.

Website Used

Flipkart (Shoes Section)

Target Information

- Brand Name
- Price
- Discount / Hot Deals
- Product Image URL
- Product Page URL

Web Scraping Implementation

This section explains how web scraping is implemented using Python. The process involves sending a request to the website, parsing the HTML content, and extracting required data such as product details.

Libraries Used

- Requests – to fetch web page content
- BeautifulSoup – to parse HTML data
- Pandas – to store extracted data in structured format

Implementation Steps

1. Import required libraries
2. Send HTTP request to Flipkart website
3. Parse HTML content using BeautifulSoup

4. Find required tags for product details
5. Extract data like name, price, discount, and image URL
6. Store data in a DataFrame or CSV file

Output

The extracted data can be saved in CSV/Excel format for analysis or displayed in tabular form using pandas.

Libraries Used

- **Requests** – Used to send HTTP requests and fetch the Flipkart webpage content.
- **BeautifulSoup (bs4)** – Used for parsing HTML and extracting required product data like name, price, and images.
- **Pandas** – Used to store scraped data in structured format (DataFrame) and export it to CSV/Excel.

Business days exclude public holidays and Sundays.\n\n Estimated delivery time depends on the following factors:\n * The Seller offering the product \n * Product's availability with the Seller \n * The destination to which you want the order shipped to and the Seller's location\n\n__Why does the delivery date not correspond to the delivery timeline of X-Y business days?\n\n It is possible that the Seller or our courier partners observe a holiday between the day you placed your order and the date of delivery, which is based on the timelines shown on the product page. In this case, we add a day to the estimated date. Some courier partners and Sellers do not work on Sundays and this is factored in to the delivery dates. \n\n __Why does the estimated delivery time vary for each seller?\n\n You have probably noticed varying estimated delivery times for Sellers of the product you are interested in. Delivery times are influenced by product availability, geographic location of the Seller, your shipping destination and the courier partner's time-to-deliver to your location. \n\n Please enter your default pin code on the product page (you don't have to enter it every single time) to know more accurate delivery times on the product page itself. \n\n __Seller does not/cannot ship to my area. Why?\n\n Enter your pincode on the product page (you don't have to enter it every single time) to know whether the product can be delivered to your location. \n\n If you haven't provided your pincode until the checkout stage, the pincode in your last used shipping address will be used to check for serviceability. \n\n Whether your location can be serviced or not depends on:\n\n * Whether the Seller actually ships to your location \n * Legal restrictions, if any, in shipping particular products to your location \n * The availability of reliable courier partners in your location \n\n At times Sellers prefer not to ship to certain locations. What payment options does PhonePe provide?__\n\n PhonePe is a new mobile payment solution. Our goal is to make digital payments so easy and safe that people never have to carry cash or cards again! You can use PhonePe as a wallet or directly make transfers through your linked bank account using UPI. It's safe, easy and instant, you have to use it to believe it!\n\n__What is UPI? What is the advantage of UPI transfers over wallets?__\n\n 'Unified Payment Interface' (UPI) is an instant payment system that allows you to transfer money directly from your bank account. The best part about UPI is that it allows you to make payments with a few clicks without the hassle of sharing bank a/c details or typing your card details, net banking password, OTP, etc. There are many advantages of UPI. The main advantage is that you don't have to block your money by loading it into a wallet. Simply link your bank account and then you can make seamless payments without having to worry about topping up a wallet, wallet spend limits or not earning interest on your money. Makes sense to use UPI for direct bank transfer rather than the plethora of wallets, doesn't it? \n\n__Can I transfer funds from PhonePe wallet? If yes, how much can be transferred?__\n\n Yes, you can transfer funds from PhonePe wallet to your bank account using the Bank Account Number and Branch IFSC Code. 7. If the order value exceeds the Gift Card amount, the balance must be paid by Credit Card/Debit Card/Internet Banking. The Cash on Delivery payment option cannot be used to pay the balance amount.

Why is my card being tokenised?

As per the new RBI guidelines to make card data more secure, merchants like Flipkart cannot store the card details of users. As an alternative, RBI has authorised card networks and card issuers to offer card tokenisation services, which means the replacement of actual credit and debit card details with an alternate code called "token". The user can either choose to tokenise their card by giving consent for future transactions or choose to continue without tokenisation.

What is a token?

A token is generated when a user gives consent to Flipkart to tokenise their card. A token is a unique value for a combination of card, token requestor (Flipkart is a token requestor & accepts request from the customer for tokenisation of a card and passes it onto the card network to issue a corresponding token) and device. The token does not contain any personal information linked to your card and is generated only when a customer uses a new card for a successful transaction on Flipkart.

Is it safe to tokenise my card?

Yes. A tokenised card transaction is considered safer as the actual card details are not shared with the Flipkart during transaction processing. Card information is stored with the authorised card networks or card issuers only and Flipkart does not store your 16-digit card number.

Is tokenisation of card mandatory?

No, customer can choose whether or not to tokenise their card.

What happens if I don't give consent to secure my card?

If you don't give consent to tokenise your card, you need to enter your card details for every transaction as stipulated under the RBI guidelines.

Why is my UPI being saved on Flipkart?

It's quicker. You can save the hassle of typing in the complete UPI information every time you shop at Flipkart by saving your UPI details. You can make your payment by selecting the saved UPI ID of your choice at checkout. While this is obviously faster, it is also very secure.

Is it safe to save my UPI on Flipkart?

Absolutely. Your UPI ID information is 100 percent safe with us. UPI ID details are non PCI compliant and are non confidential data.

What all UPI information does Flipkart store?

Flipkart only stores UPI ID and payment provider details. We do not store UPI PIN/MPIN.

Can I delete my saved UPI?

Yes, you can delete your UPI ID at any given time.

oice for your order will be shared in the form of a digital copy at your registered email address. You can also download the invoice for an already delivered order by visiting the 'My Orders' section and choosing the order for which you would like to download the invoice.

Will I be able to edit my GST details after placing an order?

The option to edit GST details after placing an order is currently not available. You can choose to cancel the ongoing order and place a fresh order with the correct GST details.

Is the option of GST Invoice available with all products/sellers?

The option of GST Invoice is currently available only on select products offered by participating sellers. You can visit the product page and scroll to the seller details section and if applicable, GST Invoice option will be clearly displayed. If the seller details do not call this out, it indicates that the seller does not currently provide this service.

What are the details I should carefully enter while filling out my GST details?

While entering the GST details ensure that the GST number mentioned is valid and active, belongs to the same state as that of the delivery address and also ensure that you mention the exact name of your registered business.

What happens if I fill incorrect details?

Please note that in case incorrect GST details are provided during order placement, the order will be automatically cancelled.

My order is eligible for the GST Invoice but why am I not shown this option during order placement?

An order is not eligible for GST Invoice option if value added services/plans/exchange offers are part of the order. You can choose to remove such plans from your order to ensure that your order is eligible for GST Invoice option.

Can I get GST Invoice for installation/service/demo that will be charged by the brand after the delivery?

If the delivery/installation/demo amount is charged by the brand, it is not included in the order invoice issued by the seller. Hence, it is not eligible for GST Invoice.

What should I do if I missed sharing my GST details / provided incorrect details on the invoice?

The GST related details as provided by the customers are automatically captured and printed on the invoice. Hence, this cannot be changed once the order has been placed. In case you entered the wrong GST details while placing the order, you can choose to cancel it and place a fresh order with the correct details.

Can I get my invoice modified?

The seller does not have the option to modify sections of the order invoice once it's generated.

If I had entered my GST details while placing an earlier order, do I have to mention it again for the next orders I place?

Please note that the GST details have to be entered each time you place an order for an eligible product in order to receive GST Invoice.

fied on the product page. Business days exclude public holidays and Sundays.\n\n Estimated delivery time depends on the following factors:\n * The Seller offering the product \n * Product's availability with the Seller \n * The destination to which you want the order shipped to and the Seller's location\n\n__Why does the delivery date not correspond to the delivery timeline of X-Y business days?__ \n\n It is possible that the Seller or our courier partners observe a holiday between the day you placed your order and the date of delivery, which is based on the timelines shown on the product page. In this case, we add a day to the estimated date. Some courier partners and Sellers do not work on Sundays and this is factored in to the delivery dates. \n\n __Why does the estimated delivery time vary for each seller?__ \n\n You have probably noticed varying estimated delivery times for Sellers of the product you are interested in. Delivery times are influenced by product availability, geographic location of the Seller, your shipping destination and the courier partner's time-to-deliver to your location. \n\n Please enter your default pin code on the product page (you don't have to enter it every single time) to know more accurate delivery times on the product page itself. \n\n __Seller does not/cannot ship to my area. Why?__ \n\n Enter your pincode on the product page (you don't have to enter it every single time) to know whether the product can be delivered to your location. \n\n If you haven't provided your pincode until the checkout stage, the pincode in your last used shipping address will be used to check for serviceability. \n\n Whether your location can be serviced or not depends on:\n\n * Whether the Seller actually ships to your location \n * Legal restrictions, if any, in shipping particular products to your location \n * The availability of reliable courier partners in your location \n\n At times Sellers prefer not to ship to certain locations. This is entirely at their discretion.\n\n More answers in our Shipping FAQs ","groceryDeliveryCharges":"**What is the estimated delivery time?**\r\n\r\nSupermart delivers at a convenient time as selected by you at the checkout time. What is the advantage of UPI transfers over wallets?__\n\n'Unified Payment Interface' (UPI) is an instant payment system that allows you to transfer money directly from your bank account. The best part about UPI is that it allows you to make payments with a few clicks without the hassle of sharing bank a/c details or typing your card details, net banking password

rd, OTP, etc. There are many advantages of UPI. The main advantage is that you don't have to block your money by loading it into a wallet. Simply link your bank account and then you can make seamless payments without having to worry about topping up a wallet, wallet spend limits or not earning interest on your money. Makes sense to use UPI for direct bank transfer rather than the plethora of wallets, doesn't it? \n\n__Can I transfer funds from PhonePe wallet? If yes, how much can be transferred?__\n\n Yes, you can transfer funds from PhonePe wallet to your bank account using the Bank Account Number and Branch IFSC Code. You can transfer a maximum of ₹5,000 in a single transaction and a maximum of ₹25,000 in a month.\n\n__Can I use an International phone number to activate PhonePe wallet?__\n\n No, currently PhonePe wallet is available only for domestic mobile numbers.", "giftcardFAQ": "__How do I buy / gift a Flipkart Gift Card?__\n\n 1. Enter the name and email address of the person you want to send the Flipkart Gift Card to. \n\n 2. Select the value of the card you would like to purchase, then click 'Proceed To Pay'. \n\n 3. The Cash on Delivery payment option cannot be used to pay the balance amount.", "savedCardFAQ": "__Why is my card being tokenised?__\n\nAs per the new RBI guidelines to make card data more secure, merchants like Flipkart cannot store the card details of users. As an alternative, RBI has authorised card networks and card issuers to offer card tokenisation services, which means the replacement of actual credit and debit card details with an alternate code called “token”. The user can either choose to tokenise their card by giving consent for future transactions or choose to continue without tokenisation.\n\n__What is a token?__\n\nA token is generated when a user gives consent to Flipkart to tokenise their card. A token is a unique value for a combination of card, token requestor (Flipkart is a token requestor & accepts request from the customer for tokenisation of a card and passes it onto the card network to issue a corresponding token) and device. The token does not contain any personal information linked to your card and is generated only when a customer uses a new card for a successful transaction on Flipkart.\n\n__Is it safe to tokenise my card?__\n\nYes. A tokenised card transaction is considered safer as the actual card details are not shared with the Flipkart during transaction processing. Card information is stored with the authorised card networks or card issuers only and Flipkart does not store your 16-digit card number.\n\n__Is tokenisation of card mandatory?__\n\nNo, customer can choose whether or not to tokenise their card.\n\n__What happens if I don't give consent to secure my card?__\n\nIf you don't give consent to tokenise your card, you n

eed to enter your card details for every transaction as stipulated under the RBI guidelines.", "savedVpaFAQ": "__Why is my UPI being saved on Flipkart?__\n\nIt's quicker. You can save the hassle of typing in the complete UPI information every time you shop at Flipkart by saving your UPI details. You can make your payment by selecting the saved UPI ID of your choice at checkout. While this is obviously faster, it is also very secure.\n\n__Is it safe to save my UPI on Flipkart?__\n\nAbsolutely. Your UPI ID information is 100 percent safe with us. UPI ID details are non PCI compliant and are non confidential data.\n\n__What all UPI information does Flipkart store?__\n\nFlipkart only stores UPI ID and payment provider details. What payment options does PhonePe provide?__\n\nPhonePe is a new mobile payment solution. Our goal is to make digital payments so easy and safe that people never have to carry cash or cards again! You can use PhonePe as a wallet or directly make transfers through your linked bank account using UPI. It's safe, easy and instant, you have to use it to believe it!\n\n\n__What is UPI? What is the advantage of UPI transfers over wallets?__\n\n'Unified Payment Interface' (UPI) is an instant payment system that allows you to transfer money directly from your bank account. The best part about UPI is that it allows you to make payments with a few clicks without the hassle of sharing bank a/c details or typing your card details, net banking password, OTP, etc. There are many advantages of UPI. The main advantage is that you don't have to block your money by loading it into a wallet. Simply link your bank account and then you can make seamless payments without having to worry about topping up a wallet, wallet spend limits or not earning interest on your money. Makes sense to use UPI for direct bank transfer rather than the plethora of wallets, doesn't it? \n\n\n__Can I transfer funds from PhonePe wallet? If yes, how much can be transferred?__\n\nYes, you can transfer funds from PhonePe wallet to your bank account using the Bank Account Number and Branch IFSC Code. Does my Flipkart Gift Card expire?

All Flipkart Gift Cards expire 1 year from the date of their creation.

1. Flipkart Gift Cards ("GCs" or "Gift Cards") are issued by Qwiksilver Solutions Pvt. Ltd. ('Qwiksilver') which is a private limited company incorporated under the laws of India, and is authorized by the Reserve Bank of India ('RBI') to issue such Gift Cards.

2. The Gift Cards can be redeemed online against Sellers listed on www.flipkart.com or Flipkart Mobile App or Flipkart m-site ('Platform') only.

3. Gift Cards can be purchased on www.flipkart.com or Flipkart Mobile App using the following payment modes only - Credit Card, Debit Card and Net Banking.

4. Gift Cards can be redeemed by selecting the payment mode as Gift Card.

5. Gift Cards cannot be used to purchase other Flipkart Gift Cards or Flipkart First subscriptions.

6. Gift Cards cannot be used to make bulk purchases on the Platform.

7. If the order value exceeds the Gift Card amount, the balance must be paid by Credit Card/Debit Card/Internet Banking. The Cash on Delivery payment option cannot be used to pay the balance amount.

Why is my card being tokenised?

As per the new RBI guidelines to make card data more secure, merchants like Flipkart cannot store the card details of users. As an alternative, RBI has authorised card networks and card issuers to offer card tokenisation services, which means the replacement of actual credit and debit card details with an alternate code called "token". The user can either choose to tokenise their card by giving consent for future transactions or choose to continue without tokenisation.

What is a token?

A token is generated when a user gives consent to Flipkart to tokenise their card. A token is a unique value for a combination of card, token requestor (Flipkart is a token requestor & accepts request from the customer for tokenisation of a card and passes it onto the card network to issue a corresponding token) and device. The token does not contain any personal information linked to your card and is generated only when a customer uses a new card for a successful transaction on Flipkart.

Is it safe to tokenise my card?

Yes. A tokenised card transaction is considered safer as the actual card details are not shared with the Flipkart during transaction processing. Card information is stored with the authorised card networks or card issuers only and Flipkart does not store your 16-digit card number.

Is tokenisation of card mandatory?

No, customer can choose whether or not to tokenise their card.

What happens if I don't give consent to secure my card?

If you don't give consent to tokenise your card, you need to enter your card details for every transaction as stipulated under the RBI guidelines.

Why is my UPI being saved on Flipkart?

It's quicker. You can save the hassle of typing in the complete UPI information every time you shop at Flipkart by saving your UPI details. You can make your payment by selecting the saved UPI ID of your choice at checkout. While this is obviously faster, it is also very secure.

Is it safe to save my UPI on Flipkart?

Absolutely. Your UPI ID information is 100 percent safe with us. UPI ID details are non PCI compliant and are non confidential data.

What all UPI information does Flipkart store?

Flipkart only stores UPI ID and payment provider details. We do not store UPI PIN/MPIN.

Can I delete my saved UPI?

Yes, you can delete your UPI ID at any given time.

Observation

1. Successfully connected to the Flipkart product webpage.

2. HTML content was fetched and parsed using BeautifulSoup.
3. Brand names, selling prices, discounts, and image URLs were extracted.
4. The extracted data was stored in Python lists and organized into a Pandas DataFrame.
5. Approximately 40 shoe products were scraped from the webpage.
6. Some webpage elements were dynamically loaded, which affected a few product details.
7. The collected data can be used for further analysis and visualization.

Conclusion

This project successfully demonstrated web scraping using Python, Requests, BeautifulSoup, and Pandas. Product details were extracted from Flipkart and converted into a structured dataset. The project enhanced understanding of HTML parsing, data extraction, data cleaning, and DataFrame creation. The scraped data can be further used for analysis and decision-making purposes.
